

Academic Year 2017-2018

Data Type 13 – Stakeholder/Constituent Feedback

Data regarding Stakeholder/Constituent Feedback will include aggregate ratings on Stakeholder/Constituent Surveys inquiring how well stakeholders and constituents who have knowledge of students and graduates of the Seminary of the Southwest’s counseling program believe the program prepared those students and graduates to fulfill the following:

1. Mission of the MHC Program
2. Goals & Objectives of the MHC Program - Being
3. Goals & Objectives of the MHC Program - Knowing
4. Goals & Objectives of the MHC Program - Doing

This data is generated by stakeholders and constituents with knowledge of our students/graduates surveyed once annually. This information is not used at the individual student level but rather at the program level to determine if the program is meeting its mission, goals, and objectives. Survey ratings are collected by the Center Administrator once a year. Stakeholder/Constituent feedback data will be reviewed annually by counseling program faculty and staff, and every three years by the interdisciplinary Counselor Education Program Assessment Committee, and recommendations are then forwarded to counseling program faculty, advisors, and administrators.

Eleven stakeholders returned survey responses and 100% of respondents indicated the program met or exceeded standards. See improvements/modifications recommended following the report.

Stakeholder/Constituent Feedback Data Annual Report:

Survey Item	2015-2016	2016-2017	2017-2018
Mission - How well does the Seminary of the Southwest prepare students/graduates to:

2. Commit to personal and spiritual practices capable of sustaining the vocation of a professional counselor?	3.0	3.0	2.85

Improvements/Modifications Recommended:

Recommendations from the previous report was to improve the response rate for Stakeholder/Constituent Surveys. The recommendation was made to convene a committee to assess and make proposals for modifying the process to obtain stakeholder/constituent contact information, prior to the end of the next assessment cycle. Response rate was improved with eleven people responding, compared to the previous report of only three people. Stakeholder/constituent contact information was obtained in various forms this year including, a professional development event held by the seminary for stakeholders/constituents, obtaining correct information from active practicum/internship students, and making phone-calls to personally update information. The MHC faculty will continue to explore how to improve the response rate.
