

Academic Year 2023–2024

Program Data Type 2 - Admission, Enrollment, & Retention

Counseling program admissions, enrollment, and retention includes data such as the number of applications started, completed, withdrawn, denied, and number resulting in the applicant being admitted. This data also includes information including student enrollment, retention, and graduation numbers, as well as attrition and course completion rates.

Admission, enrollment, and retention data are collected by the Seminary of the Southwest's Registrar/Director of Assessment and MHC Enrollment Manager annually. This information is not used at the individual student level but rather at the program level to determine if the institution and program are meeting its goal of recruiting and sustaining a diverse and dynamic learning community. This data is reviewed annually by MHC Program faculty and staff, and every three years by the interdisciplinary Counselor Education Program Assessment Committee and recommendations are then forwarded to the appropriate department.
